

1

Push

the cap of the MIRVASO Gel Pump down and turn it counterclockwise until the cap can be removed

- The clear sticker will break when opening for the first time
- When the cap is removed, the pump is not child resistant

2

Dispense

a pea-sized amount from the pump onto your fingertip

- Before the first use, prime the pump by pressing down several times until the medicine is dispensed onto your fingertip

3

Apply

pea-sized amounts to your forehead, chin, nose, and each cheek 1 time each day

- A total of 5 pea-sized amounts will be used
- Spread the gel smoothly and evenly in a thin layer over your face
- Avoid contact with your eyes and lips
- Do not apply MIRVASO Gel to irritated skin or open wounds

4

Place

the cap back on the pump, push down, and turn the cap clockwise until it stops to close

- Wash your hands right away after applying MIRVASO Gel
